

#### Period of activity: 2006

At the first stage of the Cooperation Program, working relations were established with participants of the pedagogical network. The future perspective of the teachers' staff preparation in the context of the Bologna Process work were determined. The development of innovative processes in pedagogical practice has started. Russian and international pedagogical experience in the process of modernization systems of international education was taken in account. The practical seminars have become regular among the participants of the program. Programme contributes to the development of the academic mobility of faculty and students with the aim of experiencing exchange and establishing multicultural dialogue between the participating higher educational institutions.
